WORK EXPERIENCE

Lakeholdings, LLC

Software Developer

Jan 2021 – Present

Hendersonville, CO

- Development of the company's Management Information System (MIS) application that tracks employee efficiency and monitors products/orders throughout the production process.
 - Enhanced Operational Efficiency: Achieved streamlined workflows and reduced production bottlenecks, leading to lower operational costs and quicker delivery times
 - Improved Decision Making: Enabled real-time-data-driven decision making, enhancing strategic planning and responsiveness to market dynamics.
- Led the development and maintenance of diverse web applications, utilizing a technology stack encompassing HTML, CSS, TypeScript, NodeJS, Python and Git.
- Developed Python scripts to automate key company processes and manage large databases.

Miles Holden, Landscaping

Construction Laborer

2020 – 2021

Mills River, NC

- Ensured optimal working conditions by effectively removing debris, setting up necessary scaffolding and managing waste, including safe disposal of hazardous materials.
- Assisted carpenters, electricians, and plumbers by providing timely delivery of tools and materials, mixing concrete, and performing essential excavation and trenching tasks to facilitate project milestones.

OceanX

Social Media/Sales Representative

2018 – 2020

Arden, NC

- Monitored and responded to customer inquiries, comments, and feedback on social media.
- Actively engaged with customers through various social media platforms to enhance brand presence and build positive relationships.
- Demonstrated in-depth knowledge of multiple product lines, providing accurate and detailed information to customers.
